Databases : MySQL
Web Technologies : HTML5, CSS3, Bootstrap
Frameworks & Libraries : Node.js, Express
Languages : English
Programming Languages : Python, Java, C, JavaScript
Tools & Platforms : HTML, CSS, PHP, Git, Postman, GitHub

WORK EXPERIENCE

BracU Student Tutor | Part-time Mar 2026 - May 2026
Brac University Hybrid • Dhaka

- Assisted undergraduate students by conducting tutorial sessions and explaining course concepts.
- Guided students in solving academic problems and improving their understanding of coursework.
- Strengthened communication, mentoring, and problem-solving skills through one-on-one and group interactions.

Technologies / Skills Used : Teaching, Communication, Problem Solving

EXTRACURRICULARS

IELTS Academic British Council
Overall Band: 7.0 July, 2022

- Demonstrated English proficiency in listening, reading, writing, and speaking for academic and professional communication.

EXTRACURRICULARS

Bit Battle Programming Contest

BRAC University

Intra-University Programming Contest

2025

- Participated in an intra-university competitive programming contest.
- Solved algorithmic and logical programming problems under time constraints, strengthening problem-solving and coding skills.

5th Place – National Writing Competition

National Board of Revenue (NBR)

Income Tax Fair

2017

- Secured **5th place** in a nationwide writing competition organized by the National Board of Revenue (NBR).
- Demonstrated strong analytical thinking and written communication skills.

PROJECTS

Universe-Student Management Hub | Github

Nov 2025 - Jan 2026

Full Stack Developer

Built a full-stack social networking platform using the MERN stack, enabling university students to communicate, share academic resources, participate in discussions, manage events, and collaborate through an interactive and responsive web application.

Technologies / Tools Used : *Node.js, Express, MongoDB, socket.io, JavaScript, CSS, EJS*

Cholo-Ride Sharing Management System | Github

Apr 2025 - May 2025

Full Stack Developer

Developed a web-based ride-sharing management system for university students that enables users to register, manage vehicles, post ride offers, search for available rides, and book trips. Implemented secure user authentication, trip management, and database-driven operations to provide an efficient and user-friendly transportation platform.

Technologies / Tools Used : *HTML, CSS, JavaScript, MySQL*
